ArtioPortal® Mobile

ArtioPortal Mobile is an enhancement to ArtioPortal: a centrally managed and deployed middleware solution providing fully customizable TV which allows users of mobile devices to view IPTV content.

Delivery

ArtioPortal Mobile functionality is supplied as part of AvediaServer m7205 and m7305 software.

- ArtioPortal Mobile licenses are purchased separately and are held on the AvediaServer (order code artio-mob).
- Floating license scheme allows any number of compatible mobile devices to access ArtioPortal, up to the license limit.

User Experience

ArtioPortal Mobile is fully customizable through ArtioPortal Middleware, allowing users to create eye-catching layouts with custom backgrounds and fonts. ArtioPortal Mobile also supports Channels (live streams, VoD and EPG), Search (including voice search for Android) and System Admin, accessed through a web browser or dedicated Apple and Android apps.
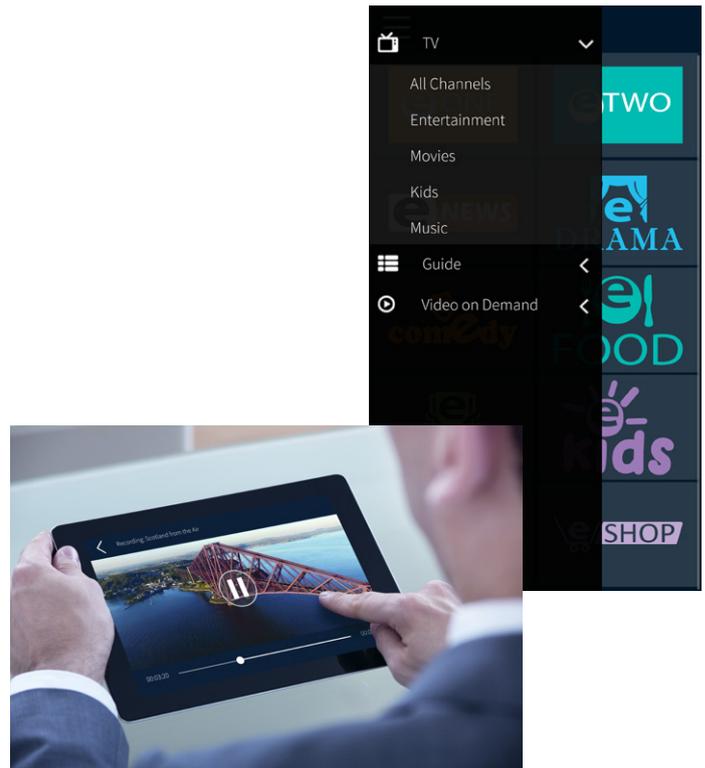

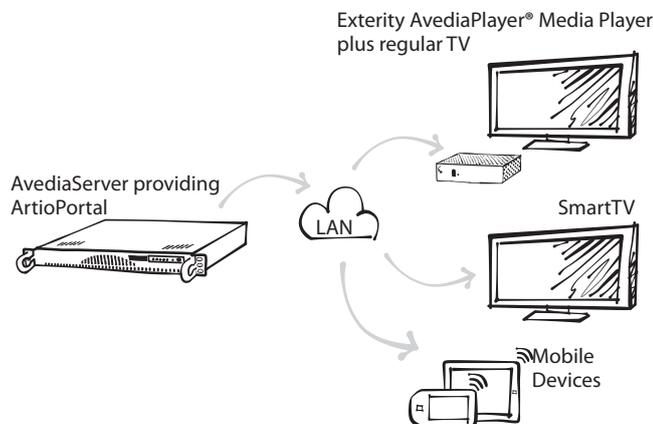

Mobile Apps

Apps developed for both Android and Apple devices provide an enhanced mobile viewing experience. Available for download from the Play/App StoresPlatforms.

Platforms

Operating system:

- iOS 9.1 or greater
- Android 5.0 Lollipop or greater
