

AvediaStream Chassis

Hot-swap enabled IPTV system head-end chassis encasement

Exterity AvediaStream TVgateway and AvediaStream Encoder blades must be installed in one of three AvediaStream chassis, which are designed for a wide range of organizational needs and budgets. All Exterity AvediaStream Chassis are hot-swap enabled, which allows movement and replacement of the Encoder and TVgateway blades without the need to power down the entire unit, saving time and avoiding disruption to other IPTV services currently operating in the same chassis.

AvediaStream c1101

- Compact unit supports a single blade
- Perfect for smaller installations or organizations requiring specific additional features

AvediaStream c1103

- Supports three blades with a common power supply
- 1U 19" rack

AvediaStream AvediaStream c1210

- Our largest and most advanced IPTV chassis supports 10 blades with built-in redundancy
- Redundant power supplies for higher availability
- Hot swap cooling fans allow replacement without the need to power down the unit
- 4U 19" rack
