

The AvediaServer® m8365 software module includes ArtioGuest, powerful middleware for the hospitality sector which delivers an on-screen user interface for guests. ArtioGuest uses drag-and-drop functionality to allow designers to create portals that can be fully customised to precisely match user requirements, without the need for web programming skills.

Overview

- Simple drag-and-drop portal creation
- Import elements from existing portals for re-use
- Easily apply your organisation's branding - no additional coding required

Guest Functionality

Channels

- Display a list of channels in a grid layout allowing guests to select and play TV and radio
- Import and use easily recognisable channel icons
- Collate similar channels into groups

VoD

- Display available films/video content allowing guests to select items as required
- Editable title, description, image, time and tariff (if available)
- Can be linked to PMS purchases (SAPI & Fidelio-Cruise PMS only)
- Configurable age restriction (SAPI & Fidelio-Cruise PMS only)
- Optional PIN entry to view (Fidelio-Cruise PMS only)

Guide

- Display an Electronic Program Guide with optional preview of the selected programme
- Up to 14 days programme schedule information
- Configurable Catchup channels with 7 day availability

Clock

- Display the current time and/or date

Video Sharing on Smart TVs

- Share videos, pictures and music from:
 - Samsung SmartView app
 - LG Smart Share app
- Support Google Chromecast and screen share

Information Pages

- Display a list of links to web pages which can be loaded individually by guests

Welcome

- Create a customisable welcome message

Weather

- Up to five day forecast
- Display weather in multiple locations
- Celsius/Fahrenheit temperature display

Language

- Allow a user to select a language for the ArtioGuest portal
- Languages can be added as required

TV Source

- Allow guest choice of TV input, enabling use of their own devices - laptop, games console, etc
- Provide easy access to YouTube, Netflix, Airtime and Spotify, or custom applications

RSS Feeds

- Add RSS feeds to your portal to provide a source of up to date information for your guests

Recording

- Use the Recording Form app to schedule recordings, or record live from the EPG
- Access all recordings through the Recordings app

View

- Use the View app to create structured multi-page portals

Video

- Play a video or channel on the portal home page with guest option for full screen display

Guest (PMS Integration)

- Compatible with Micros-Fidelio, Fidelio-Cruise, SAPI, Protel and Agilysis (not all features available in all PMS)
- Welcome Message
- View bill, optional PIN requirement
- Express checkout
- VoD Purchases
- Standby on checkout/resume on check-in

Excursions (PMS Integration)

- Compatible with Fidelio-Cruise PMS
- List available organised excursions
- Enable booking placement for guest and party
- PIN requirement

Room Service (PMS Integration)

- Guests can browse through a customisable list of items, make selections and purchase those items

Hotel Services (PMS Integration)

- Enable guests to browse and book hotel services, such as spa, in-room and taxi services

Mailbox Messaging

- Send concierge messages to individual, grouped, or all displays via the Smart Control application
- Create a variety of message templates in different languages to allow for quick and easy messaging

Channel Redundancy Support

- Reduce disruption to the guest - specify one or more alternative channels to play in the event of stream failure

Supported Platforms and Licensing

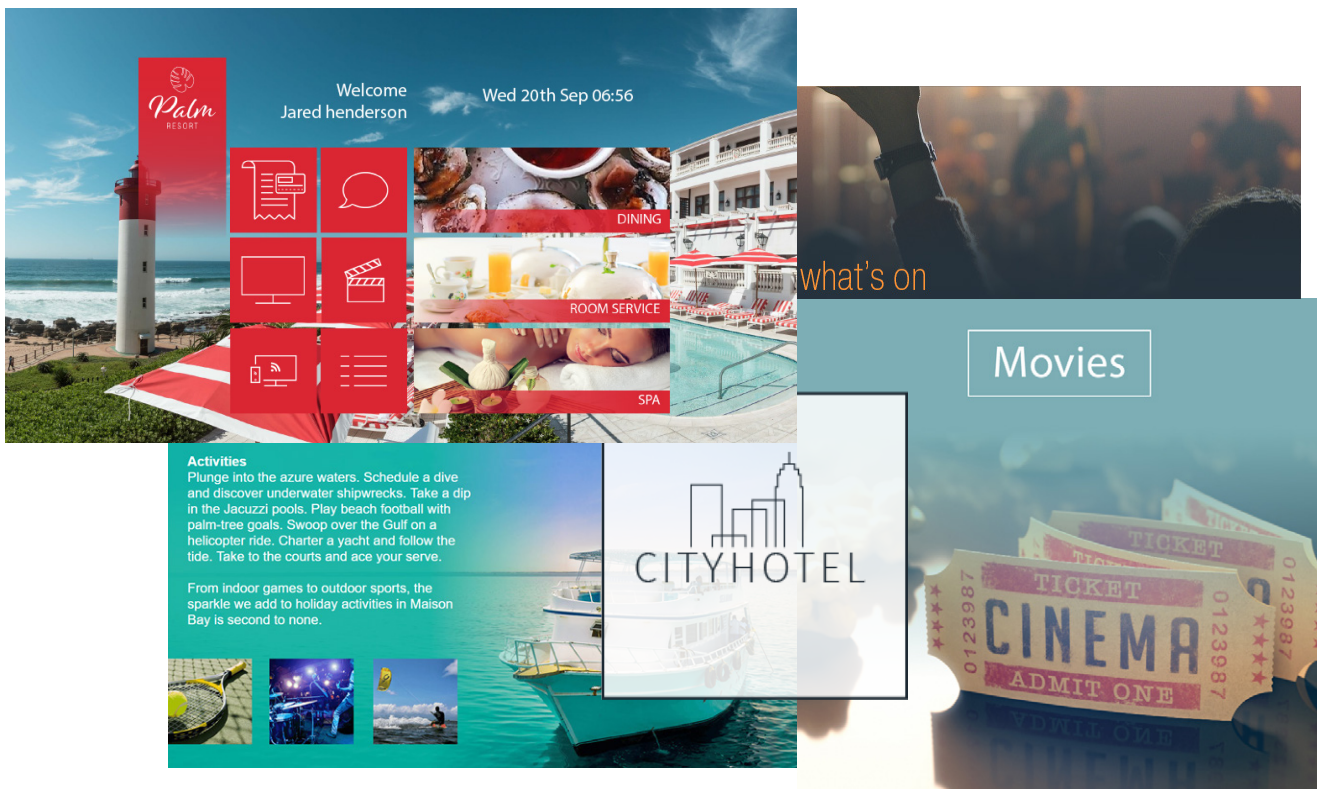

Platform	License
• AvediaPlayer r93xx	• included
• Samsung Hospitality Smart Displays	• artio-stv
• LG Hospitality Smart Displays	• artio-stv
• Sony Hospitality Smart Displays	• artio-stv
