

ArtioSign enables the creation, management and display of digital signage as part of an Exterity IP video system. **ArtioSign Create** provides a simple drag-and-drop interface for creating digital signage content, while **Smart Control** and **ArtioSign Schedule** are used to manage the content displayed.

ArtioSign Create

Create uniquely branded, full HD digital signage layouts with drag-and-drop simplicity. Choose from the following on-screen elements to build digital signage layouts:

Video

- IP video streams (up to and including 4K)
- Local content stored on media player (refer to AmediaPlayer datasheets for supported video formats)
- Add lists of videos or channels for selection by remote control
- Choose to play live video full screen or in dedicated pane

Image

- JPEG, PNG, Static GIF
- Multiple image carousel with configurable duration

Text (Static, multi-line, scrolling)

- Upload custom fonts to use with text elements
- Text scroll can be set to left or right

RSS feeds (Scrolling)

- Upload custom fonts to use with RSS
- Feed scroll can be set to left or right

PDF import

- Import single or multi-page documents
- Delete or re-arrange pages

PowerPoint™ import

- Import single or multi-slide presentations
- Delete or re-arrange slides

Point of Sale

- Integrates with Oracle Symphony Point of Sale systems to display dynamic menu items
- artio-lic-pos licence required

Date/Time

- DD/MM/YY, MM/DD/YY, DD/MM/YYYY, MM/DD/YYYY date formats
- HH/MM, HH/MM/SS, 12/24hr time formats
- Display the time in various different timezones

Browser

- Display simple HTML pages and integrate third-party data

London Transport

- Shows the status of London Underground, Overground, TfL Rail, DLR and Tram services
- artio-lic-ldn licence required

Meeting Room

- Compatible with:
 - Amadeus Delphi hospitality system
 - Microsoft Exchange 2016
 - Hyatt Envision
- Standard Meeting Room element displays now-and-next information at venue entrance
- Licensable Meeting Room Summary element displays multiple meetings per room, with support for way-finding

Weather

- Up to five day forecast
- Display weather in multiple locations
- Celsius/Fahrenheit temperature display
- Multiple language selection for displayed text

Templates

- 24 landscape and portrait templates

Twitter

- Display Tweets from a single Twitter profile
- Retain and display up to 30 Tweets in a carousel with configurable display duration

Create playlists

- Multiple layouts displayed in a loop with configurable durations
- Configure layouts to display on certain days, dates and times

Configurable permissions

- Limit users or profiles to editing only certain playlists
- Limit users or profiles to editing only certain elements within certain playlists

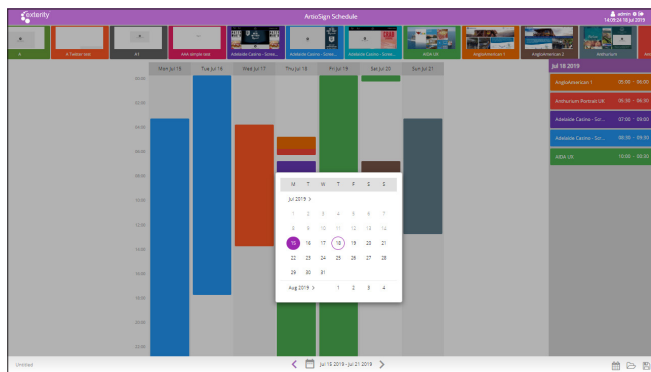

ArtioSign Schedule

Schedule specific content to be displayed at certain times using ArtioSign Schedule's drag-and-drop calendar interface.

Campaign Creation

- Create campaigns to schedule content to be displayed up to a year in advance
- Schedule content with 1 minute granularity
- Agenda view aids short adjacent playlist timing
- Specify default playlist for when no other content is scheduled
- Configurable publish time

Smart Control

Publish playlists and campaigns to ArtioSign Display-enabled devices using the simple Smart Control drag-and-drop interface

Control Groups

- Organise devices into control groups for simple publishing to multiple devices
- Drag and drop devices to create/organise control groups
- Unlimited number of control groups
- Unlimited number of devices in a control group

Access

- Access Smart Control from a PC, or from an Apple or Android tablet to manage digital signage on the move

Configurable permissions

- Limit users or profiles to publishing to certain control groups/devices
- Limit users or profiles to publishing only certain playlists/campaigns

Configurable permissions

- Limit users or profiles to editing only certain campaigns

ArtioSign Approvals

Create an Approver user profile to ensure consistency and accuracy of signage screens. When approvals functionality is enabled, playlists and schedules must first be approved before they can be published.

Licensing

- ArtioSign Display - Licence activation requires the MAC address of the AvediaServer (requires Media Player version 6.2.3+)
- London Transport Element - Licence activation requires the MAC address of the AvediaServer
- High Availability available as a purchased option (avsrv-1009)
- Point of Sale available as purchased option (artio-lic-pos)
- Meeting Room Summary available as a purchased option (artio-lic-msum)

ArtioSign Display (artio-flo, artio-ldf)

Displays digital signage content on AvediaPlayer Media Players and Samsung and LG LFDs.

- AvediaPlayer 93- and 94-series Media Players
 - Simple floating licence mechanism (artio-flo) enables AvediaPlayer Media Players to become digital signage end-points
 - Support for HDCPv2.2, Samsung LYNK[®] DRM (SSSP5/6, 93-series media players) and ARRIS SECUREMEDIA[®] (93-series only) content-protected (encrypted) streams
 - Low power consumption makes AvediaPlayer Media Players an economic choice for digital signage playback
- Large Format Signage Displays
 - artio-ldf licences enable Samsung LFD (SSSP 5/6) and LG LFD (WebOS 3.2/4.0) to become digital signage endpoints

Exterity Design Service

- Customised design service available for the creation of digital signage
- We can provide a set of customised ArtioSign design templates for your organisation
